#### Organizational Chart (page 10)

This chart provides a general schemata of the overall District organizational structure.

#### Elected and Appointed Officials (page 11)

This list provides names and position descriptions of key elected and appointed officials within the District.

#### Map - Precincts of the Board of Education (page 12)

This map provides the names of elected Board members and their associated geographic electorate.

KEITH C. RITTEL, SUPERINTENDENT KERRY J. SMITH, BUSINESS ADMINISTRATOR

October 1, 2012

### To the Members of the Provo City School District Board of Education and the Patrons of Provo City School District:

Superintendent's Message We are pleased to present, to the public, Provo City School District's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2012. This Comprehensive Annual Financial Report (CAFR) includes financial and non-financial information to meet the needs of a broad spectrum of readers.

The report is prepared in accordance with generally accepted accounting principles (GAAP) which are applicable to governmental entities throughout the United States. The Governmental Accounting Standards Board (GASB) establishes local government accounting principles. This report conforms to all current, relevant pronouncements of the GASB, which, taken as a whole, are referred to as generally accepted accounting principles (GAAP).

Management assumes full responsibility for all of the information presented in this report. The District believes the presentation of the report is accurate in all material respects, and the financial position and results of operations are presented fairly. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included. *Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.* The District's comprehensive internal control framework has been designed to provide reasonable, but not absolute assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition, and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets.

State law requires that school districts publish, within five months of the close of each year, a complete set of financial statements which are audited by a firm of licensed certified public accountants. The CPA Network, LLC, a firm of licensed certified public accountants, has audited the District's financial statements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified ("clean") opinion for the District's financial statements for the fiscal year ended June 30, 2012; this opinion indicates the statements are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the *Financial Section* in this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. Government Auditing Standards, issued by the Comptroller General of the United States and the provisions of the Office of Management and Budget Circular A-133, Audits of States and Local Governments and Non-Profit Organizations, are the authoritative standards governing Single Audit engagements. These standards require the independent auditor to report not only on the fair presentation of the financial statements, but also on the District's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the District's separately issued Single Audit Report. A copy of the Single Audit Report is available from the District Business Office.

In addition to the Single Audit requirements, the District is required to meet audit requirements according to Utah State Code 51-2 to report on compliance with significant state fiscal laws.

Generally accepted accounting principles (GAAP) require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of management's discussion and analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in connection with it. The District's MD&A immediately follows the independent auditor's report.

#### **DISTRICT PROFILE**

**Summary** Provo City School District was officially organized in 1898. Provo City School District is one of 41 public school districts in Utah, and the District serves approximately 14,700 students. The major purpose of the District is to provide public education to students who reside in Provo City which is located in the central portion of Utah County, Utah. To accomplish this purpose, the District operates two traditional high schools, an alternative high school, two middle schools, thirteen elementary schools, and a web based school which services all grade levels. The District continues to have a positive influence on the community by offering both traditional and proven non-traditional education to its students. These non-traditional alternatives include preschool training for disabled students, adult high school completion, the largest selection of on-line courses in the state, and concurrent enrollment where students can earn high school and college credits simultaneously. Programs such as advanced placement, special education, music, career technology, elementary dual language, multicultural programs, gifted and talented programs, and many other enrichment programs in all curriculum areas are offered by the District. The District has strong technical and foreign language programs in both traditional and on-line offerings, and is one of the few Districts in the state to offer elementary foreign languages.

TheProvo City School District is a legally separate entity enjoying all rights and privileges ac-<br/>corded political subdivisions in the State of Utah. Policy making and legislative authority and<br/>oversight are vested in the Board of Education consisting of seven members. The Board of<br/>Education is responsible, among other things, for developing policy, adopting the annual bud-<br/>get, levying property taxes, incurring bonded debt, and appointing both the Superintendent<br/>and Business Administrator. The Board of Education and District administration recognize<br/>that the District's financial health largely dictates its ability to deliver the most appropriate<br/>education for each individual student. The Superintendent and Business Administrator are<br/>responsible for carrying out the policies of the Board of Education and oversight of the day-

to-day operations of the District. The Board of Education is elected locally on a non-partisan basis.

Although the blended component units are separate entities with separate governing bodies, the activities are primarily in support of District activities. Consequently, the Foundation and Municipal Building Authority are reported as blended component units in the District's Governmental Fund financial statements to provide readers with a more accurate and fair picture of the overall substance of the District's financial affairs.

GoverningThe District Board of Education consists of seven members. The Board of Education repre-<br/>sents the Provo City citizenry and has been elected from precincts which were independently<br/>determined by the Provo City Council. A map of the precinct boundaries is included in the<br/>Introductory Section of the report.

#### MAJOR INITIATIVES & LONG-TERM FINANCIAL PLANNING

DistrictThe financial position of the District remains stable.Due to the global recession, fiscalEffortsyears 2008-09 thru 2011-12 have proved to be the most difficult financial years in<br/>recent history. However, the District has been able to maintain a strong financial posi-<br/>tion. Total state funding was reduced over \$7 million during a four year period, begin-<br/>ning in 2008-09. Overall, federal revenues decreased \$2.9 million in FY12. However,<br/>the prior year included revenues of \$4.1 million from one time funding sources, includ-<br/>ing the American Recovery and Reinvestment Act, and EduJobs.

District fund balances have decreased from \$42,926,426 at June 30, 2011, to \$38,372,069 at June 30, 2012. This fund balance decrease is primarily due to planned spend down of balances due to decreased funding and aggressive capital improvement plans. While State law allows only modest fund balances, these monies allow the District to respond to a variety of emerging issues, including the need for funds in the future due to funding cuts. Healthy fund balances and financial position allow the District to secure future financing at favorable interest rates and to explore promising educational reform without reducing resources to current programs.

*Provo School District is well managed.* Although the recession has put immense financial pressure on the system, the District has kept as many resources as possible in the classroom. The District budget includes aggressive goals to accomplish the 20/20 initiatives. As the next fiscal year begins, new leadership takes the helm of the Provo City School District. The District continues to benefit from the vision and strategy provided by the 20/20 Initiative, which brought together a wide range of community stakeholders with the common goal of making Provo a progressive, innovative and responsive school district.

The District has an established record of being financially transparent and well run, consistently earning national financial awards. We are emerging from the recent economic storm in a position to take advantage of opportunities to increase educational achievement, and continue to maintain a strong financial position.

The district is committed to maintaining balanced budgets.

DistrictThe District continues a targeted and aggressive capital improvement schedule. Capital im-Masterprovements are funded through two major sources: capital tax levies, and general obligationPlanbonds.

All capital projects and maintenance efforts are part of a progressive 20 year building replacement plan. The oldest buildings, in most need of repair, will be replaced first, the years of original construction range from 1931-2011. The District completed a new elementary school, which was built with the QSCB bond funds received in FY10, and reserve Capital Project funds. Qualified School Construction Bonds (QSCB) are part of the federal stimulus bill of 2009. The District was awarded \$6.4 million in QSCB funding in FY10 to help fund the rebuild of Provo Peaks Elementary. These funds are tax credit bonds, which allows the District to fund part of the school at very low interest rates. The District does not anticipate the need for further bond issuance for buildings until 2017.

The District's capital outlay tax levy will provide approximately \$2 million annually. It is anticipated once the Building Reserve fund reaches \$13 million, a draw will be made to replace an elementary school.

Budget<br/>DevelopmentThe District strategically manages its operations with a focused effort to maintain its end of<br/>year fund balances. The District's process includes an annual review of all District programs<br/>including a program-level needs assessment analysis. The Board approves the budget in June<br/>for the following fiscal year. The District is pleased to report that budget decisions made in<br/>the last few fiscal years have enabled the District to maintain healthy fund balances. The<br/>General Fund unassigned fund balance on June 30, 2012 was \$3,149,472. Total restricted<br/>governmental fund balances on June 30, 2012 were \$14,016,362, which includes \$1.3 mil-<br/>lion General fund balance, \$2.5 million capital fund balance, \$695 thousand Debt Service<br/>fund balance. The remainder of fund balances includes \$788 thousand of Non-spendable<br/>fund balances, \$19.5 million in Committed fund balances and \$2.2 million in Assigned fund<br/>balances.

StateThe state fiscal 2012 school finance program is designed to provide every Utah schoolFundingdistrict with a basic operation program of \$2,816 per weighted pupil unit (WPU) (up from<br/>\$2,577 the last three years). The Weighted Pupil Unit (WPU), part of the Minimum School<br/>Program, is a measure of student enrollment based on a pro-rated amount of days in atten-<br/>dance per student.

#### LOCAL ECONOMY

UtahThe economic outlook of the District is heavily dependent on state aid, providing 58.9% of<br/>General Fund revenues. As noted above, the WPU is provided based on student enrollment.ConditionsEnrollment in fiscal year 2012 was 14,700. Projected enrollment for the FY13 and FY14 is<br/>14,400 and 14,500, respectively. The state Uniform School Fund was constitutionally estab-<br/>lished in 1938 and is used to equitably allocate funding for statewide public education pro-<br/>grams. Since 1947, all taxes based on income have been constitutionally required to be used<br/>for public education. In 1996, voters in Utah approved a constitutional change providing that<br/>these revenues could also be used for higher education. Additionally, a statewide property<br/>tax rate is levied to finance the Uniform School Fund and is applied against the taxable value<br/>of real and personal property.

The economic recession, which continues to impact Utah, has turned upward slightly. Utah's nonagricultural employment increased an estimated 2.6%, or 32,000 jobs, between June 2011 and June 2012. Nationally, employment increased 1.4%, or 1.8 million jobs, from June 2011 and June 2012.

Utah's unemployment rate was 6.0% during June 2012, lower than the June 2011 unemploy-

ment rate of 6.9%. The national unemployment rate was 8.2% in June 2012 lower than the June 2011 rate of 9.1%.

Provo City is the county seat of Utah County, which has seen explosive growth in recent years. In 2000, the U.S. Census Bureau counted Utah County's population at 371,894. The 2010 U.S. Census indicated that Utah county's population had grown to 516,564. The state's population is projected to reach 3.7 million in 2020, 4.4 million in 2030, 5.2 million in 2040, 6.0 million in 2050, and 6.8 million in 2060.

Utah will continue to experience population growth at a rate higher than most states in 2012 on account of strong natural increase in addition to in-migration. Natural increase (births less deaths) is anticipated to add 39,100 people to Utah's population. While net in-migration has slowed since the peak of the economic expansion, Utah's net migration is projected to remain positive at 5,000 people. In addition, the percentage of Provo residents enrolled in the Provo School District trends relatively constant, as more residents elect to send their children to charter, private and on-line schools. Approximately 12 out of every 100 Provo residents is a student in the Provo School District.

#### **RELEVANT FINANCIAL POLICIES**

Budgetary<br/>ControlThe District adopts an annual budget for all revenues and expenditures; the adopted budget<br/>serves as the financial operating plan through the fiscal year. Revisions may be implemented<br/>during the year, and revisions are approved and authorized by the Board of Education<br/>through public hearing. Pursuant to Utah Code 53A-19-108, the District submits monthly<br/>budget reports to the Board of Education for review.

All annual appropriations lapse at fiscal year-end with the exception of those indicated as a fund balance reserve. During June of each year, the District Superintendent submits to the Board a proposed operating budget for the next fiscal year commencing July 1. This budget includes proposed expenditures and the means of financing them. Included also is a final budget for the current year ending June 30.

Utah Code Annotated, Section 53A-19-104 states, "A local school board may not make any appropriation in excess of its estimated expendable revenue, including undistributed reserves." It has been the policy of the District to estimate appropriations as accurately as possible.

The Board of Education legally adopts, by resolution, the next fiscal year's budget on or before June 22, after obtaining taxpayer input. If the District is required to, or chooses to go through the truth in taxation process<sup>\*</sup>, revised tax rates are set in August, through public hearing and Board of Education approval.

CapitalA formal capital budget approval process is used which requires the Board of EducationBudgetto authorize line item capital improvement projects greater than \$50,000 for the next fiscal<br/>year. The Board appropriated \$5.4 million for planned capital projects and improvements for<br/>Fiscal Year 2011-12. (includes capital projects fund and municipal building authority)

Appropriations for capital projects and improvements for fiscal year 2011-12 included an increase in the capital improvement budget to \$2.6 million (capital projects fund and municipal building authority). Several remodeling projects were undertaken during the year. In addition, construction of the new Provo Peaks Elementary school was completed during FY12.

\*The "Truth in Taxation" law imposes specific public notice and public hearing requirements that are triggered when a taxing entity proposes to increase its property tax revenues (not rates) above those collected in the previous year (tax revenues generated by "new growth" in an entity's tax base are exempt from the disclosure requirements). The public hearings are required to allow elected officials to explain the reasons for the proposed increase and allow citizens to comment on any proposed increase. Other Post-<br/>EmploymentThe District provides a life-time Medicare supplemental insurance benefit for retired employ-<br/>ees who have completed at least 20 years of service as of January 1, 2005; the plan also pro-<br/>vides coverage for spouses of employees who have completed 30 years of service by January<br/>1, 2005. There are approximately 490 retirees receiving benefit coverage in addition to 277<br/>present employees (and spouses) who have earned vested coverage upon retirement.

An actuarial study was completed in 2011, based on data as of July 1, 2010 that reflects an accrued liability of \$8,452,000 for the Medicare supplement and \$18,981,000 for the insurance associated with those retirees (and spouses) who have not reached age 65 as well as current employees (and spouses) who have vested eligibility. An additional \$15,904,000 reflects an accrued liability for early retirement stipends. The annual recommended contribution (assuming 30 year amortization) was reported to be \$2,384,000. The District contributed \$3,289,051 for retiree benefits during fiscal year 2012. More detailed information can be found in Note 7 to the financial statements.

#### **AWARDS & ACKNOWLEDGEMENTS**

GovernmentThe Government Finance Officers Association of the United States and Canada (GFOA)Financeawarded a Certificate of Achievement for Excellence in Financial Reporting to Provo CityOfficersSchool District for its comprehensive annual financial report for the fiscal year endedJune 30, 2011. This was the ninth consecutive year that the District has achieved thisprestigious award. In order to be awarded a Certificate of Achievement, a governmentmust publish an easily readable and efficiently organized comprehensive annual financialreport. This report must satisfy both generally accepted accounting principles (GAAP)and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The District believes that the current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and will submit it to the GFOA to determine its eligibility for another certificate.

AssociationThe District also received the Association of School Business Officials (ASBO) International'sof SchoolCertificate of Excellence in Financial Reporting for the Comprehensive Annual Financial Report for the Year Ended June 30, 2011.ficialsFinancial Report for the Year Ended June 30, 2011.

This award certifies that the report substantially conforms to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials International.

The award is granted only after an intensive review of the District's financial reports by an expert panel of certified public accountants and practicing school business officials and is valid for a period of one year. This was the ninth year the District has received the ASBO Certificate of Excellence.

Provo City School District expresses its appreciation to members of the Provo City School District Board of Education. Their interest and support in conducting the financial affairs of Provo City School District was critical to the success of District operations and achievements made.

The preparation of the report on a timely basis could not be accomplished without the efficient and dedicated services of the entire business staff. The District is appreciative of the efforts made by Stefanie Bryant, Director of Accounting, for preparing this report and

coordinating the annual audit. In addition, the entire business office staff's efforts throughout the year are dually appreciated.

Most importantly, the District expresses appreciation to all of the members of the departments and schools who assisted in the appropriate management, timely processing, and closing of the District's financial records. Their diligence and dedication is critical to the proper management of the District's financial assets and the overall delivery of quality services to District patrons.

Respectfully submitted,

fin C. Kind

Board of Education Provo City School District

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Provo City School District, as of and for the year ended June 30, 2012 which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Provo City School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Provo City School District, as of June 30, 2012, and the respective changes in financial position and the respective budgetary comparison for the General Fund, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 28, 2012, on our consideration of Provo City School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 17 through 26 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquires, the basic financial statements, and of other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Provo City School District's financial statements as a whole. The introductory section, the combining and individual nonmajor fund financial statements and budgetary comparison schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and budgetary comparison schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparies in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical statements and accordingly, we do not express an opinion or provide any assurance on it.

## Management's Discussion and Analysis

This section of Provo City School District's (District) Comprehensive Annual Financial Report presents management's discussion and analysis of the District's financial performance during the year ended June 30, 2012. The MD&A is intended to provide an analysis directly related to the information presented in the transmittal letter found on pages 1 through 7 of this report and the District's financial statements, which follow the MD&A in this report.

#### Financial Highlights

*The financial position of the District remains stable.* The following highlights are considered by the District to be significant factors in measuring the District's financial performance for the fiscal year ended June 30, 2012:

• **Government-Wide Net Assets.** The District's total assets exceeded liabilities by \$97.8 million at the close of fiscal year 2012.

• **Government-Wide Financial Progress (full-accrual basis of accounting):** During the year, expenses were \$1.0 million less than the \$110.8 million generated in taxes and other revenues for governmental activities. The \$1.0 million increase in net assets is due primarily to decreased spending, prompted by state revenue cuts and economic factors and one time stimulus money.

• **Governmental Fund Financial Progress (modified-accrual basis of accounting):** During the year ended June 30, 2012, the combined fund balance decreased by \$4.5 million. The \$4.5 million fund balance decrease is due primarily to a planned spend down of funds in the General Fund, Capital Projects Fund and Municipal Building Authority. Planned decreases in the General and Capital Projects Funds were primarily due to funding decreases, while the decrease in the Municipal Building Authority was for completion of Provo Peaks Elementary.

• The District's General fund makes up the largest portion of the overall total fund balance among all governmental funds. The General fund balance decreased by \$1.1 million in fiscal year 2012.

• **Capital Lease Obligation.** During fiscal year 2010, the District entered into a capital lease agreement to fund drivers education simulators. The total long-term obligation was for \$82,000, and the remaining balance at June 30, 2012 is \$8,506. The lease is for a period of five years, however in FY11 additional principal of \$20,000 was paid. Total principal and interest paid in FY12 was \$14,461 and \$539, respectively.

• **District Master Plan** - All capital projects and maintenance efforts are part of a progressive 20 year building replacement plan. Capital improvements are funded through two major sources: the capital outlay tax levy and general obligation bonds.

The District completed a new elementary school, built with the QSCB bonds and building reserve funds. Qualified School Construction Bonds (QSCB) are part of the federal stimulus bill of 2009. The District was awarded \$6.4 million in QSCB funding in FY10 to help fund the construction of Provo Peaks Elementary. The remainder of the cost to rebuild the school was funded from the Capital Projects property tax levy. The District does not anticipate the need for further bond issuance for buildings until 2017.

#### **Overview of Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) governmentwide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

#### A. Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *Statement of Net Assets* presents information on all of the assets and liabilities of the District, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents information showing how the net assets of the District changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes, early retirement obligations, and earned but unused vacation leave.)

The government-wide financial statements can be found on pages 28 to 29 of this report.

#### **B. Fund financial statements**

A *fund* is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

**Governmental funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains seven individual governmental funds, and it reports the District's Foundation and Municipal Building Authority (blended component units) as additional governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement

18

of revenues, expenditures, and changes in fund balances for the General fund, Debt Service fund, and Capital Projects fund, each of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each governmental fund is provided in the form of *combining and individual fund statements* elsewhere in this report.

The District adopts an annual appropriated budget for its General fund. A budgetary comparison statement has been provided for the General fund to demonstrate compliance with this budget.

The basic governmental fund statements can be found on pages 30 to 34 of this report.

**Fiduciary funds**. Fiduciary funds are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are *not* reflected in the government-wide financial statements because the District cannot use these funds to finance its operations.

The District uses agency funds to account for resources held for various groups. The basic fiduciary fund financial statement can be found on page 35 of this report.

#### C. Notes to the basic financial statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 36 to 52 of this report.

#### **D.** Other information

Combining and individual fund statements and schedules are presented immediately following the notes to the financial statements on pages 53 to 80 of this report. Additional financial and non-financial statistical data and trends are presented in the statistical section of the report.

#### Government-wide Financial Analysis (full-accrual basis of accounting)

#### A. Net Assets - Governmental Activities

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$97.8 million at the close of the most recent fiscal year.

Net assets of the District's governmental activities increased 1.1% to \$97.8 million. However, net assets are classified as either restricted as to the purposes they can be used for, or are invested in capital assets (land, buildings and improvements, equipment, etc.). Consequently, unrestricted net assets (27.5% of total net assets) are \$26.9 million at the end of this year.

The largest portion of the District's net assets (55.0%) reflects its investment in capital assets (e.g., sites, buildings, equipment and vehicles net of accumulated depreciation), net of related long term debt used to acquire such assets (general obligation bonds payable less unspent bond proceeds). Capital assets are used to provide services to students, and are not available for future spending. It should be noted, that the resources needed to repay the related debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net assets (17.5%) represents fund balances that are subject to external restrictions on how they may be used. The majority of restricted fund balance is for the Build-ing Reserve fund.

### PROVO CITY SCHOOL DISTRICT'S Net Assets (in millions of dollars)

	Governmental activities					
	2012		2011		Change from 2011	
Current and other assets	\$	84.8	\$	79.5	\$	5.3
Capital assets		104.5		104.3		0.2
Total assets		189.3		183.8		5.5
Other liabilities		39.8		30.9		8.9
Long-term liabilities outstanding		51.6		56.1		(4.5)
Total liabilities		91.4		87.0		4.4
Net assets:						
Invested in capital assets, net of related debt		53.8		49.2		4.6
Restricted		17.1		18.1		(1.0)
Unrestricted		26.9		29.5		(2.6)
Total net assets	\$	97.8	\$	96.8	\$	1.0

#### B. Changes in Net Assets - Governmental Activities

The District's total net assets increased by \$1.0 million during the current year. While overall net assets increased, unrestricted net assets decreased by \$2.6 million. Restricted net assets decreased by \$1.0 million during the year ended June 30, 2012. The decrease in restricted net assets is due primarily to the use of fund balances in response to budget cuts.

The District's total revenues for the year were \$110.8 million, which represents a decrease of \$3.0 million over the prior year. Total federal and state aid comprise (specific to programs and unrestricted) 18.7% of the District's revenues; property taxes generated 29.0% of the District's revenues. Revenues from operating grants and contributions decreased from the prior year by \$427 thousand. This decrease is due primarily to a decrease in federal one time funds as compared to the prior year.

As compared to the prior year, the total cost of all programs and services increased by \$2.5 million to \$109.8 million. Instruction and support services (including food services) were 66.4% and 28.4%, respectively, of the District's expenses. Increases in expenses were primarily due to planned spend down of fund balances, for construction of Provo Peaks Elementary, and additional capital projects approved by the Board of Education.

Changes in federal and state aid are a reflection of changes in funding for specific programs and changes in student enrollment. State aid is based primarily on weighted pupil units (WPUs) and other appropriations. If a student is in membership a full 180 days, the state awards the District one WPU. The state guarantees that if local taxes do not provide money equal to the guarantee it will make up the difference with state funding. The value of the WPU for the year ended June 30, 2012 was \$2,816 (\$2,577 during the three previous years).

#### Expenses by Function - Governmental Activities Year Ended June 30, 2012

22

#### A. Governmental funds

The focus of the District's *governmental funds* is to provide information regarding near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. The District is accountable for the following governmental funds:

General Fund - used to account for funds associated with K-12 educational activities as well as those funds that do not meet the criteria for reporting in other governmental funds.

Non K-12 Instruction Fund (special revenue fund) - used to account for funds that are restricted to programs that are *not* primary components of the District's K-12 education activities.

School Activities Fund (special revenue fund) - used to account for activities at the school level, including sports, clubs and instruction related programs.

Food Services Fund (special revenue fund) - used to account for local, state, and federal funds restricted to breakfast, lunch, and other food service programs.

Debt Service Fund - used to account for funds accumulated and restricted for payments of general long-term obligation debt.

Capital Projects Fund - used to account for funds generated through property taxes restricted for capital projects and capital lease obligations.

Building Reserve Fund - used to account for funds designated by the Board of Education for new buildings or remodels.

Municipal Building Authority Fund - used to account for funds received from lease revenue bonds under the direction of the Municipal Building Authority.

Provo City School District Foundation - used to account for patron donations.

As the District completed the year, its governmental funds reported a combined fund balance of \$38.4 million, which is a \$4.5 million decrease from the previous year. The primary reason for the decrease in fund balance mirror those highlighted in the analysis of governmental activities. In addition, the following changes should be noted:

• The District's *General* fund balance decreased by \$1.1 million as compared to a \$1.4 million increase in the previous year. The decrease is due primarily to increased operating costs.

• The Capital Projects fund balance decreased by \$1.8 million in the current year. The primary reason for this change in fund balance is due to additional approved capital projects while construction costs are low.

• The District's *Municipal Building Authority* fund was established during FY10. The current fund balance is (\$1.4) million. The negative fund balance is due to overruns in costs of construction for Provo Peaks Elementary.

• All other changes in fund balances are due to normal fluctuations in operational resources and property tax collections, and economic constraints.

• As compared to the prior year, expenditures for District purposes totaled \$115.4 million, a decrease of \$4.4 million during the current fiscal year. The decrease is primarily due to prior year expenditures in the Municipal Building Authority fund, that were for construction of Provo Peaks Elementary. These costs were minimal in the current year, as compared to prior year. (Most of the construction for Provo Peaks occurred in FY11).

• General fund salaries totaled \$51.5 million as compared to \$50.6 million in the previous year. Associated employee benefits of retirement, social security, and insurance (health and accident, industrial, and unemployment) totaled \$22.7 as compared to \$22.4 million in the previous year. Associated benefits did not fluctuate comparatively to salaries due to annual post retirement benefit payments.

Governmental funds report the differences between their assets and liabilities as fund balance, which is divided into non-spendable, restricted and unrestricted portions. *Non-spendable* includes inventories, long term portion of notes receivable, and any prepaid expenditures (items not expected to be converted to cash). *Restricted* includes net fund balances that are subject to external constraints due to state or federal laws, or externally imposed conditions by grantors or creditors. Restrictions include tax revenues levied for specific purposes. *Unrestricted* funds are further divided into committed, assigned, and unassigned portions. *Committed* balances reflect the District's self imposed limitation on the use of otherwise available funds. *Assigned* balances are intended for a specific use and do not require board action. Assigned includes unrestricted programs, amounts in excess of non-spendable, restricted, and committed fund balances in funds other than the general fund. *Unassigned* balances in the General Fund are all other undesignated funds, and any residual deficits from other funds.

Changes in local revenues are due to the following elements:

• *Property taxes:* Changes in property taxes are primarily due to changes in assessed property valuations, additions of new taxable properties, and collection rates.

• *Tuitions:* Tuitions represent charges to participants for ancillary programs such as truancy program fees, after school programs, preschool, the Center for High School Studies, recreation activities, and driver's education. Consequently, major changes in tuitions represents fluctuations in both program activity and services provided through these ancillary programs, and economic factors. These tuition revenues also represent fees charged to secondary school students for specific activities; secondary school fees are accounted for in the school activities fund.

• *Earnings on investments:* Changes in investment earnings are due to market fluctuations in interest rates and the current balance held in the investments.

• *Other revenue from local sources:* This classification represents collections for services rendered to other independent entities, fees for local services rendered, and other miscellaneous income sources including fund raising events in the School Activities fund.

• *Transportation fees, contributions and food services:* Changes are due to normal fluctuations in program level activities, and fluctuations due to economic factors.

	(all governmental funds combined)			
	2012	2011		
Property taxes	\$ 32,123,987	\$ 31,891,333		
Tuitions	191,375	180,969		
Transportation fees	231,776	121,668		
Earnings on investments	368,052	280,572		
Food Services	1,131,545	1,149,429		
Contributions	500,548	749,180		
Other revenues from local sou	rces 7,249,331	8,390,741		
	\$ 41,796,614	\$ 42,763,892		

#### PROVO CITY SCHOOL DISTRICT'S Local Revenues (all governmental funds combined)

#### **Budgetary Highlights**

During the year, the Board revised the District's budget. Budget amendments were to reflect changes in programs and related funding. The difference between the original budget and the final amended budget was an increase of \$2.1 million in total General fund revenues and an increase of \$3.1 million in expenditures. The most significant budget changes may be summarized as follows:

• *Federal revenues:* Federal revenues increased \$1.0 million. The increase is due to additional grant awards.

• State revenues: State revenues increased \$1.0 million. The increase is due to increased enrollment.

• *Instructional services:* Instructional Services salaries and benefits increased \$2.0 million. The increase is primarily due to Board approved increase in existing salaries. Depending on salary schedules, employees received a 1-2% increase for FY12.

The remaining differences between original and final budgets are due to on-going adjustments at the program and fund levels as new information is received by the District, and are not significant in amount.

The General fund final year to date results did not have any significant variances from the final approved budget that were unknown or not planned for.

#### **Capital Assets & Debt Administration**

#### A. Capital Assets

The Capital Projects fund is used to account for the costs incurred in acquiring, maintaining, and improving sites, constructing and remodeling facilities, and procuring equipment necessary for providing educational programs for all students within the District.

Capital assets at June 30, 2012 and 2011 are outlined below:

(her of accumulated depreciation in initions of donars)					
	Government				
	2011	2011	Total Change 2012-2011		
School sites (land)	\$ 6.2	\$ 6.2	\$ -		
Works of art	0.4	0.4	-		
Construction in progress	-	12.8	(12.8)		
Buildings	91.3	77.2	14.1		
Furniture & equipment	6.6	7.7	(1.1)		
Total capital assets	\$ 104.5	\$ 104.3	\$.2		

## PROVO CITY SCHOOL DISTRICT'S Capital Assets (net of accumulated depreciation in millions of dollars)

Major capital asset events during the current fiscal year included the following:

- Construction of the new Provo Peaks Elementary School was completed in FY12
- Major remodel projects at Franklin Elementary and Provo High
- Various HVAC upgrades to increase efficiency

Additional information regarding the District's capital assets can be found in Note 5 to the basic financial statements.

#### **B. Debt Administration**

The general obligation bonded debt of the District is limited by state law to 4% of the fair market value of the total taxable property in the District. The legal debt limit at June 30, 2012 is \$257.8 million. General obligation debt at June 30, 2012 is \$43.8 million, resulting in a legal debt margin of \$214.0 million.

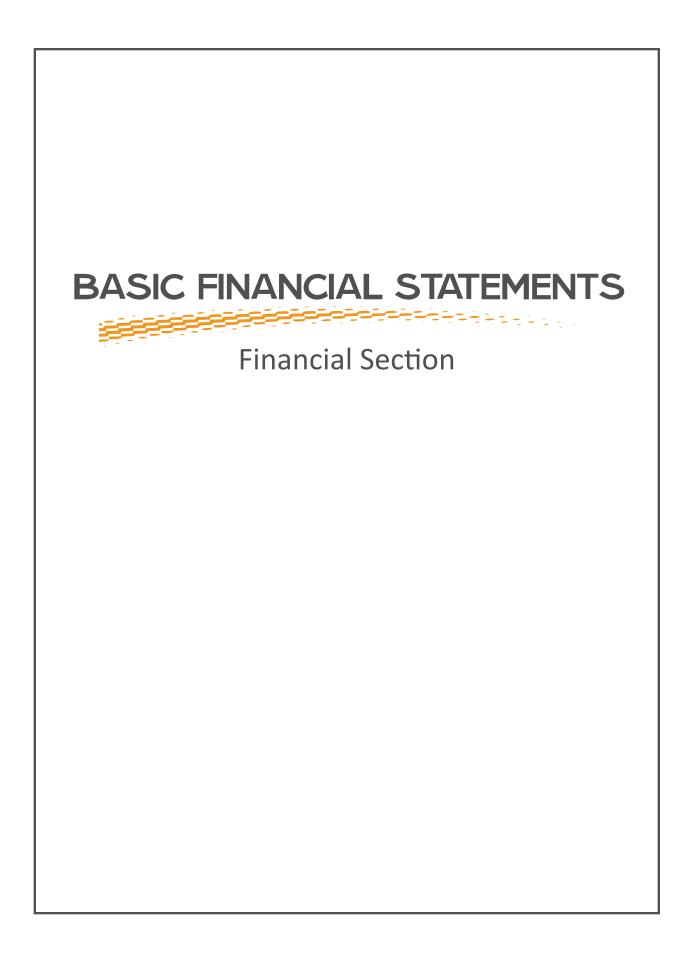

#### PROVO CITY SCHOOL DISTRICT'S Outstanding General Obligation Debt

		mental vities	
	2012	2010	Total Change 2012-2011
General obligation bonds	\$ 43.8	\$ 48.2	\$(4.4)

No new debt was incurred in fiscal year 2012. Additional information regarding the District's long-term debt can be found in Note 6 to the basic financial statements.

#### **Request for Information**

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors a general overview of the District's finances and to demonstrate the District's accountability for the funds it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Business Administrator, Provo City School District, 280 West 940 North, Provo, UT, 84604.

## PROVO CITY SCHOOL DISTRICT Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

Year Ended June 30, 2012

Net change in fund balances-total governmental funds	\$ (4,554,357)
Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial cost of \$10,000 or basket purchase cost of more than \$20,000 are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expenses. Proceeds from any related sale of capital assets, as well as any gain or loss and notes receivable are also reported in the statement of activities.	
Capital outlays 7,009,197	
Depreciation expense - capital assets (6,776,551)	
Proceeds on sale of assets (10,362)	000 ( ) (
Gain on disposal of assets 10,362	232,646
The governmental funds report OPEB contributions as expenditures when paid. However, in the statement of activities, the difference between OPEB plan contributions and OPEB costs for the year is expensed.	905,051
The governmental funds report bond proceeds as an other financing source, while repayment of bond principal is reported as an expenditure. In the statement of net assets, however, issuing debt increases long-term liabilities and does not affect the statement of activities and repayment of principal reduce the liability. Also, governmental funds report the effect of issuance costs and premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. Interest is recognized as an expenditure in the governmental funds when it is due. In the statement of activities, however, interest expense is recognized as it accrues, regardless of when it is due. The net effect of these differences in the treatment of general obligation bonds and related items is as follows:	
Lease Revenue Bond proceeds -	
Repayment of bond principal 4,339,000	
Bond interest expense 7,135	
Amortization of deferred amounts on refunding (95,735)	
Amortization of bond premium 145,043	
Amortization of bond issuance costs (38,740)	4,356,703
Capital assets acquired through capital leases are shown as an expenditure and other financing source in the governmental funds. The other financing source must be removed from the statement of activities. Repayment of principal is reported as an expenditure in the governmental funds for both capital leases and lease revenue bond obligations, but repayment of principal is applied to the liability in the statement of net assets and reduces the District's obligations. Interest expense is recognized as it accrues.	
Principal payments of capital lease obligation 14,461	14,461
In the statement of activities, obligations for compensated absences (vacations) and voluntary termination benefits (early retirement) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid).	
Vacation payable (compensated absences) 65,778	 65,778
Change in net assets of governmental activities	\$ 1,020,282

The notes to the basic financial statements are an integral part of this statement.

## **1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Provo City School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local government units in general and Utah school districts in particular. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting financial reporting principles. The more significant accounting policies of the District are described below.

## A. Reporting Entity

The Board of Education, comprised of seven elected individuals, is the primary governing authority for the District. The Board establishes District policies, approves the budget, appoints a Superintendent with responsibilities for administering all educational activities of the District, and appoints a Business Administrator with responsibilities for fiscal matters. The Board is authorized to issue bonds, incur short-term debt, levy property taxes, and is not dependent on any other unit of local government. The District is not a component unit of any other primary government.

These basic financial statements present the activities of the District and its component units. The blended component units, although legally separate, function exclusively for the benefit of the District and in substance are part of the District's operations. The District is not a component unit of any other government.

The *Provo School District Foundation for Excellence.* The foundation is a nonprofit organization established under Internal Revenue Service regulations as a conduit for tax-deductible contributions to the District. The Foundation serves the District almost entirely, and the District has a significant influence upon the financial operations of the Foundation and is able to access the economic resources held by the Foundation. The Foundation is considered a blended component unit, and the Foundation is presented as a special revenue fund of the District, and its activity is reported in the *Support Services—Students* function in the government-wide financial statements. Separate financial statements for the Foundation can be obtained by contacting the Provo City School District Business Office, 280 West 940 North, Provo, Utah, 84604.

*Provo City School District Municipal Building Authority (MBA).* Use of the MBA was authorized in FY10 for the purpose of issuing lease revenue bonds. MBA accounts and transactions are recorded in the Municipal Building Authority Fund, a major fund included in the major governmental funds of the District. The MBA will receive lease revenue from the Capital Projects Fund (a major fund of the District). The lease revenue will be used to make the bond payments. See note 6 regarding details of the bond issuance and payment schedule. Financial information specific to the MBA may be obtained from the office of the Business Administrator of the District.

## B. Government-wide and Fund Financial Statements

36

The government-wide financial statements (the statement of net assets and the statement of changes in net assets) display information about the primary government (the District). These statements include the financial activities of the overall government, except for fiduciary activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions.

As a general practice, interfund activity has been eliminated from the government-wide financial statements in order to avoid double counting. Exceptions to this general rule are payments made between functions for internal services provided; elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to a particular function. Deprecia-

tion expense for capital assets that can specifically be identified with a function is included in its direct expenses. Depreciation expense for "shared" capital assets (for example, a school building is used primarily for instructional, school administration, operation and maintenance of facilities, and school lunch services) are ratably included in direct expenses of the appropriate functions. Interest on general long-term liabilities is considered an indirect expense and is reported in the statement of activities as a separate line item. Program revenues include 1) fees and charges paid by students and other recipients of goods or services offered by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.

Revenues that are not classified as program revenues, including property taxes, are presented as general revenues.

## C. Fund Financial Statements

The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

The District reports the following major governmental funds:

- *General Fund* is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- *Debt Service Fund* accounts for resources accumulated and payments made for principal and interest of general obligation school building bonds.
- *Capital Projects Fund* accounts for resources accumulated and payments made for the acquisition, maintenance, improvement of sites, construction and remodel of facilities, and procurement of equipment necessary for providing educational programs for all students within the District.

The District reports the following non-major Special Revenue funds that receive revenues which are restricted to expenditures for specified purposes:

- *School Food Services Fund* to account for preparation and serving of school lunches and breakfasts.
- *Non K-12 Instruction Fund-* to account for preschool, adult education and other non K-12 programs.
- *School Activity Fund* used to account for the receipt and disbursement of monies of student activity organizations and other custodial type transactions within the schools.
- *Building Reserve Fund-* to account for funds designated by the Board for new buildings or remodels.
- *Municipal Building Authority Fund* accounts for resources accumulated and payments made realted to the lease revenue bonds, including costs of construction on the bond projects, and bond interest payments.
- *Foundation* accounts for donations and payments made by Provo City School District Foundation

Additionally, the District reports the following funds as Agency funds:

• Special Programs Agency Fund - used to account for assets held by the District for independent

smaller entities and agencies. The District provides services such as payroll and accounts payable for these entities but has no legal control and accountability requirements for how they use their resources.

## D. Measurement Focus, Basis of Accounting, & Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus. The government-wide and agency fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, which the District receives value without directly giving equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within thirty days after year-end. Property taxes and interest are considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when the District receives cash. Expenditures generally are recorded when the related fund liability is incurred, except for principal and interest on general long-term liabilities, claims and judgments, early retirement and post employment health care benefits, arbitrage rebates, and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

When both restricted and unrestricted resources are available for use, it is the District's procedure to use restricted resources first, then unrestricted resources, as they are needed.

## E. Budgets and Budgetary Accounting

38

The District operates within budget requirements for school districts as specified by state law and as interpreted by the State Superintendent of Public Instruction. All governmental funds have legally adopted annual budgets. Budgets are presented on the modified accrual basis of accounting for all governmental funds. All annual appropriations lapse at fiscal year-end with the exception of those indicated as a fund balance reserve. The following procedures are used in establishing the budgetary data reflected in the financial statements:

• During June of each year, the District Business Administrator submits to the Board a proposed operating budget for the next fiscal year commencing July 1. This budget includes proposed expenditures and the means of financing them. Included also is a final budget for the current year ending June 30.

• Copies of the proposed budget are made available for public inspection before the Board hearing in which the Board adopts the proposed budget.

• If the District does not require a truth in taxation hearing, a public hearing is held prior to

June 22, at which time the budget is legally adopted by resolution of the Board after obtaining taxpayer input. If the District does require truth in taxation, the budget is adopted in August when data is available to set the rates.

• Once adopted, the budget can be amended by subsequent Board action. The Board upon recommendation of the Superintendent can approve reductions in appropriations, but increases in appropriations, at the fund level, require a public hearing prior to amending the budget. In accordance with Utah state law, interim adjustments may be made by administrative transfer of money from one appropriation to another within any given fund.

• Certain interim adjustments in estimated revenue and expenditures during the year ended June 30, 2012, have been included in the final budget approved by the Board, as presented in the financial statements.

• Expenditures may not legally exceed budgeted appropriations at the fund level.

**Encumbrances -** Encumbrance accounting, under which purchase orders for goods and services are recorded in order to restrict that portion of the applicable appropriation, is used to facilitate comparisons with budgets. Outstanding encumbrances lapse at year-end, and appropriations for the subsequent year are used to honor these commitments.

## F. Deposits and Investments

Substantially all of the cash balances, of all funds, are pooled and invested by the District for the purpose of increasing earnings through investment activities and providing efficient management of temporary investments. The pool's investments are reported at fair value at year-end. Changes in the fair value of investments are recorded as investment earnings. Earnings on pooled funds are apportioned and paid or credited to programs based on the average balance of each participating program.

#### G. Cash and Cash Equivalents

The District considers cash and cash equivalents to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition, including the Public Treasurers' Investment Fund (PTIF).

## H. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements, and which are outstanding at year-end, are referred to as either "due to/from other funds".

## I. Capital Assets

Capital assets, which include land, buildings and improvements, and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial cost of \$10,000 or more, or a "basket purchase" cost of more than \$20,000 for land, furniture, equipment, buildings and improvements, and an estimated useful life in excess of one year. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are reported at cost or materially extend the assets' lives are not capitalized.

All works of art are capitalized at estimated fair value at the time the donation was made. However, some of the works of art were appraised in 1994 as no value was previously determined for financial reporting purposes. Those pieces have been capitalized at the fair value of the appraisal. The District's art collection carries a net book value of \$356,150 in the government-wide financial statements; works of art are a non-depreciable item in the government-wide financial statements.

Major outlays for capital assets and improvements are capitalized when the assets are acquired and placed into operation and/or as construction occurs. Interest incurred during construction is not capitalized.

Buildings and improvements, as well as furniture and equipment of the District, are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	50
Building Additions	40
Building Improvements	20
Physical Education Equipment	20
Standard Furniture & Accessories	20
Stage & Auditorium	20
Portable Classrooms	15
Machinery & Tools	15
Appliances	15
Grounds & Accessories	15
Audio Visual	10
Lab Equipment	10
Music - Instruments & Accessories	10
Licensed Vehicles	8
Business Machines	5
Miscellaneous Equipment	5
Software	3

## J. Expenditure Driven Grants - Variances Between Budget and Actual Data

Expenditure driven grants are recognized as revenue when the qualifying expenditures are incurred and all other grant requirements are met; unspent grant amounts are carried forward and included in the succeeding fiscal year's budget. Therefore, actual grant revenues and expenditures can be significantly different than the amounts budgeted.

## K. Comparative Data, Restatements and Reclassifications

Comparative data for the prior year is presented in certain sections of the accompanying financial state ments in order to provide an understanding of the changes in the District's financial position and operations. Ending fund balances fiscal year 2011 have been restated to reflect shifts in classifications, as well as adjustments to government wide reporting for deferred taxes and bond issuance costs.

#### L. Compensated Absences and Voluntary Termination Benefits

40

Compensated absences and voluntary termination benefits are typically paid for by resources from the District's General fund. However, it is the District's policy to use resources from other funds, when those other funds directly funded the employees' related positions to pay for these costs. Consequently, minimal costs related to these benefits are periodically funded by funds other than the General fund when it is reasonably practical to do so.

Under terms of association agreements, eligible employees can earn vacation and sick time in amounts varying with tenure and classification. In the event of termination or death, an eligible employee is reimbursed for accumulated vacation days to a maximum of 20 days. No reimbursement or accrual is made for unused sick leave. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

See Note 6 for a description of these long-term obligations.

## M. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable statement of net assets. Bond premiums and discounts, as well as refunding and issuance costs, are deferred and amortized over the life of the bonds using the straightline method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### N. Fund Balance

In the fund financial statements, governmental funds report fund balances based on a hieracrchy that shows the level or form of constraints on fund balance resources, and the extent to which the District is bound to honor those constraints. Fund balance classifications are:

*Non-spendable* - includes fund balance amounts that cannot be spent because they are either a) not in a spendable form, or b) legally or contractually required to be maintained intact. Fund balances related to inventory, long term portions of notes receivable and prepaid expenditures are classified as nonspendable.

*Restricted* - includes fund balance amounts subject to external constraints that have been placed on the use of the resources imposed by either a) creditors, grantors, contributors, or laws and regulations of other governments, or b) law through constitutional provisions or enabling legislation. Restricted fund balances include unpsent tax revenues for specific purposes (non K-12 instruction, building reserve, capital projects, debt service and other purposes), remaining child nutrition funds, and donations held in the Provo City School District Foundation.

*Committed* - includes fund balance amounts that can only be used for specific purposes established by formal action of the Board of Education. Fund balance committments can only be removed or changed by the same action of the Board. Committed resources also include any contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The following fund balance amounts have been committed by the Board of Education:

- OPEB
- Contractual Obligations
- Board Voted Contingency

*Assigned* -includes funds that are intended for a specific use but do not require board action; (District Adminsitration may establish use of such funds) unrestricted programs, and those amounts in excess of non-spendable, restricted, and remaining positive fund balances in funds *other than* the general fund, such as school activities fund.

*Unassigned* - funds in excess of other categories in the General Fund and any residual deficits in any fund.

It is the District's policy to use restricted resources first when both unrestricted and restricted are available. Of the unrestricted resources, the District will first use committed, followed by assigned, and then unassigned.

#### **0.** Inventories

Inventories are valued at cost, or if donated, at fair value when received, using the first-in first-out (FIFO) method. Inventory in the General and Special Revenue funds consists of expendable supplies held for consumption. The cost is recorded as an asset at the time individual inventory items are purchased, and an expenditure is recorded when the assets are distributed and consumed.

Commodities received from federal sources are consumable inventories intended to support short-term District food service operations. Thus, federal commodities are treated as a current financial resource and are recorded as revenues when received in both the fund statements and government-wide statements.

Inventory amounts reported in governmental funds are offset by Non-spendable fund balances of equal amount, indicating they are not expected to be converted to cash.

#### P. Indirect Costs

Indirect costs charged to certain programs are routinely recorded in the District's *governmental fund* financial statements.

As a general practice, interfund indirect costs have been eliminated from the *government-wide* financial statements in order to avoid double counting and to provide direct-cost information to financial statement readers.

## Q. Use Of Estimates

42

Presenting financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make certain estimates concerning assets, liabilities, revenues, and expenses.

#### R. Special Programs Agency Fund

The District, through its desire to support other local community programs as well as goals set by the Board of Education, provides accounting-related services to several independent entities. The District serves only as a fiscal agent and has no fiscal accountability for these programs; consequently, no budget is adopted by the Board of Education for these funds. Financial activity for these entities are disclosed in the Special Programs Agency fund. A schedule of assets and liabilities for each independent agency is provided in the *Combining and Individual Fund Financial Statements & Schedules* section of this report on pages 78-80. The entities included in this fund are described as follows:

• *Brigham Young University Partnership* - funds are managed by university specialists to provide support services, research, staff development, and teacher recruitment for five separate school districts throughout the state.

• *Utah Professional Development Center* - receives federal funding to provide staff development resources for school districts in Utah serving special student populations.

## 2. DEPOSITS AND INVESTMENTS

Deposits and investments are carried at fair value. A reconciliation of cash and investments at June 30, 2012, as shown on the financial statements is as follows:

Carrying amount of deposits	\$ 2,093,554
Carrying amount of investments:	
Public Treasurers' Investment Fund	41,704,742
Repurchase Agreement	1,676,985
Total cash and investments	\$45,475,281
Governmental funds cash and investments	\$45,475,281

## Deposits

**Deposits - Custodial Credit Risk -** Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk. As of June 30, 2012, the District's exposure to custodial credit risk for deposits was as follows:

Depository Account	Carrying Amount	Bank Balance	Amount Insured
Provo City School District	\$ 828,792	\$ 78	\$ 78
Student Activities	1,007,711	901,276	901,276
Provo School District Founda- tion	257,051	211,045	211,045
	\$ 2,093,554	\$ 1,112,399	\$ 1,112,399

#### Investments

The District's investments are managed through participation in the Utah Public Treasurers' Investment Fund and through an escrow account and repurchase agreement arrangements with local banks. The reported value of the Public Treasurer's Pool is the same as the fair value of the pool shares. As of June 30, 2012, the District had the following investments:

Investment	Original Maturities	Fair Value
Utah Public Treasurers' Investment Fund (includes School Activities and Foundation)	less than 1 year	\$ 41,704,742
Repurchase Agreement	less than 1 year	1,676,985
		\$ 43,381,727

**Investments - Interest Rate Risk** - The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, interest rate risk is managed by compliance to the Utah Money Management Act which provides guidance for handling depository and investing transactions in order to minimize interest rate risk.

**Investments - Credit Risk** - The District follows the requirements of the Utah Money Management Act (Section 51, chapter 7 of the Utah Code) in handling its depository and investing transactions. District funds are deposited in qualified depositories as defined by the Act. The Act also authorizes the District to invest in the Utah Public Treasurers' Investment Fund (PTIF), certificates of deposit, U.S. Treasury obligations, U.S. agency issues, high-grade commercial paper, bankers' acceptances, repurchase agreements, corporate bonds, restricted mutual funds, and obligations of governmental entities within the State of Utah. The PTIF is invested in accordance with the Act. The State Money Management Council provides regulatory oversight for the PTIF. The degree of risk of the PTIF depends upon the underlying portfolio. The District's investment in the PTIF is not rated. The Act and Council rules govern the financial reporting requirements of qualified depositories in which public funds may be deposited and prescribe the conditions under which the designation of a depository shall remain in effect. The District has no investment policy that would further limit its investment choices.

**Investments - Custodial Credit Risk.** For an investment, custodial credit risk is the risk that, in the event of the failure of the counter party, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The entire \$1,676,985 invested in repurchase agreements consists of underlying securities which are held by the investment's counter party, not in the name of the District, and are not insured. The District's repurchase agreements arrangement primarily invests in obligations of the United States Treasury, agencies or financial instruments of the United States that meet allowable investments of the Utah Money Management Act. The District does not have an investment policy for custodial credit risk.

## 3. PROPERTY TAXES

44

The budgeting and accounting for property taxes are accounted for on a modified-accrual basis, with appropriate recognition of property taxes receivable at year-end. The District has recorded a corresponding property tax deferral for taxes assessed January 1, but not due and collectible within thirty days of the end of the fiscal year.

The property tax revenue of the District is collected and distributed by the Utah County Treasurer as an agent of the District. Utah statutes establish the process by which taxes are levied and collected. The county assessor is required to assess a lien on real property as of January 1 and complete the tax rolls by May 15. The District's Board of Education is required to adopt its initial budget for the next fiscal year by June 22; this initial budget adoption establishes tax levy rates to provide resources to fund District operations for the next fiscal vear beginning July 1. If the proposed District budget requires changes to levied tax rates, which are above the tax levy rates certified by the Utah State Tax Commission, the District may be required to meet specific due process requirements as outlined in Utah Truth-in-Taxation laws by August 17. By July 21, the county auditor is to mail assessed value and tax notices to property owners. A taxpayer may then petition the County Board of Equalization between August 1 and August 15 for a revision of the assessed value. The county auditor makes approved changes in assessed value by November 1 and on this same date the county auditor is to deliver the completed assessment rolls to the county treasurer. Tax notices are mailed with a due date of November 30. Delinquent taxes are subject to a 2% penalty, with a \$10 minimum penalty. If delinquent taxes and penalties are not paid by January 15 of the following year, these delinquent taxes, including penalties, are subject to an interest charge at a rate determined by the County; the interest period is from January 1, until the taxes are paid. If, in May of the fifth year, the taxes remain delinquent, the County advertises and sells the property at a tax sale.

Beginning January 1, 1992, an annual uniform fee based on the value of motor vehicles was levied in lieu of an ad valorem tax on motor vehicles. This uniform fee was 1.5% of the fair market statewide value of the property, as es-

tablished by the State Tax Commission. Effective January 1, 1999, legislation required motor vehicles be subject to an "age-based" fee that is due each time a vehicle is registered. The age-based fee is for passenger type vehicles and ranges from \$10 to \$150 based on the age of the vehicle. The revenues collected in each county from motor vehicle fees is distributed by the county to each taxing entity in which the property is located in the same proportion in which revenue collected from ad valorem real property tax is distributed. The District recognizes motor vehicle fees as property tax revenue when the County collects it and remits the collections to the District.

As of June 30, 2012, the District had accrued a property tax receivable on the government-wide financial statements of \$29,739,588. This accrual represents calendar year 2012 property taxes of \$26,987,957 levied for the year ended June 30, 2012 due to be collected by November 30, 2012, plus \$2,751,631 of delinquent property taxes receivable for taxes assessed prior to 2012 that remain uncollected.

## 4. INTERFUND BALANCES AND TRANSFERS

Interfund payables and receivables are financial resources that have been provided by various District governmental and fiduciary funds and programs to provide for other various funds or programs.

As of June 30, 2011 the following interfund balances exist:

	General	Municipal Building
	Fund	Fund
Due to other funds	-	\$1,405,960
Due from other funds	\$1,405,960	-

During the year ended June 30, 2012, the District made transfers between funds. The District transferred \$2 million from the Non K-12 fund to the Building Reserve fund. The transfer is part of a multi-year levy designed to provide the District flexibility of replacing an elementary school without issuing bonds. The District also transferred \$900,000 from the Building Reserve fund to Capital Projects fund to fund additional projects.

## 5. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2012 is as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental activities: Capital assets, not being depreciated:				
Land	\$ 6,228,328	\$-	\$-	\$ 6,228,328
Construction in progress	12,801,043	21,751	(12,801,042)	21,752
Works of art	356,150		-	356,150
Total capital assets, being not being depreciated	19,385,521	21,751	(12,801,042)	6,606,230
Capital assets, being depreciated :				
Buildings and improvements	125,478,150	18,307,382	-	143,785,532
Furniture and equipment	21,310,324	1,481,106	(10,526)	22,780,904
Total capital assets, being depreciated	146,788,475	19,788,488	(10,526)	166,566,436
Accumulated depreciation for:				
Buildings and improvements	(48,324,099)	(4,179,358)	-	(52,503,457)
Furniture and equipment	(13,577,326)	(2,597,193)	10,526	(16,163,993)
Total accumulated depreciation	(61,901,425)	(6,776,551)	10,526	(68,667,450)
Total capital assets, being depreciated, net	84,887,049	13,011,937		97,898,986
Governmental activity capital assets, net	\$ 104,272,570	\$ 13,033,688	\$(12,801,042)	\$104,505,216

For the year ended June 30, 2012, depreciation expense was charged to functions of the District as follows:

	Equipment	Improvements	Total
Governmental activities:			
Instruction	\$ (1,575,096)	\$ (3,538,246)	\$ (5,113,341)
Support services:			
Students	(93,915)	(171,197)	(265,112)
Instructional staff	(37,874)	-	(37,874)
General administration	-	(59,528)	(59,528)
School administration	(6,746)	(58,196)	(64,942)
Business	(215,996)	-	(215,996)
Operation and maintenance of facilities	(30,256)	-	(30,256)
Transportation	(500,243)	-	(500,243)
School food services	(111,816)	(233,077)	(344,893)
Community services	(25,251)	(119,114)	(144,365)
Total depreciation expenses - governmental activities	\$ (2,597,193)	\$ (4,179,358)	\$ (6,776,551)

## 6. LONG-TERM OBLIGATIONS

## A. Changes In Long-term Obligations

Long-term liability activity for the year ended June 30, 2012 is as follows:

	Beginning Balance	А	dditions	Reductions	Ending Balance	Due Within One Year
Governmental activities:						
General obligation bonds payable:						
General obligation bonds	\$ 48,182,00	00 \$	-	\$ (4,339,000)	\$ 43,843,000	\$ 4,516,000
Lease revenue bonds	\$ 6,462,00	00 \$	-	\$-	\$ 6,462,000	-
Deferred amounts for issuance premium	992,3	59	-	(145,043)	847,316	-
Deferred amount on refunding	(546,50	09)	-	95,735	(450,774)	-
Total general obligation bonds payable, net	55,089,8	50	-	(4,388,308)	50,701,542	4,516,000
Obligations under capital leases	22,9	67		(14,461)	8,506	8,506
Vacation payable	996,22	79	135,557	(201,334)	930,502	930,502
Total governmental activity long-term liabilities	\$ 56,109,09	96 \$	135,557	\$ (4,604,103)	\$ 51,640,550	\$ 5,455,007

Payments on compensated absences are typically charged to the fund in which the employee worked.

#### B. General Obligation Bonds Payable

46

Bonds payable at June 30, 2012, are comprised of the following general obligation issues and are serviced by property tax revenues received by the Debt service fund:

			Interest Rate		Current Outstanding
Series	Purpose	Original Amount	Range	Final Maturity Date	Balance
1998 Series G.O. Refunding Bonds	Bond Refunding	4,950,000	3.40% to 4.15%	June 15, 2013	520,000
2004 Series G.O. Refunding Bonds	Bond Refunding	18,690,000	2.0% to 5.0 %	June 15, 2017	12,000,000
2006 Series G.O. Bonds	School Building	9,400,000	4%	June 15, 2026	7,225,000
2007A Series G.O. Refunding Bonds	Bond Refunding	8,220,000	3.807%	June 15, 2015	2,648,000
2007B Series G.O. Bonds	School Building	25,600,000	4.00% to 4.50%	June 15, 2027	21,450,000
	Total General Oblig	ation Bonds Payable a	as of June 30, 2012		\$ 43,843,000

Debt service requirements to maturity, including interest for the general obligation bonds payable, are as follows:

Year Ending				
June 30	 Principal	 Interest	Deb	ot Service Fund
2013	4,516,000	 1,906,752		6,422,752
2014	4,701,000	1,727,698		6,428,698
2015	4,936,000	1,515,951		6,451,951
2016	5,240,000	1,293,563		6,533,563
2017	3,650,000	1,048,063		4,698,063
2018-2022	9,675,000	3,631,938		13,306,938
2023-2027	11,125,000	1,384,750		12,509,750
	\$ 43,843,000	\$ 12,508,714	\$	56,351,714

## C. Lease Revenue Bonds(Qualified School Contruction Bonds)

During fiscal year 2010 the District was awarded \$6,462,000 in Qualified School Construction Bonds (QSCB). Theses bonds are part of the 2009 federal stimulus bill. The bonds were issued via the Municipal Building Authority to rebuild Farrer Elementary. The bonds carry an interest rate of 1.23% and mature in 2026. Lease revenue bonds payable at June 30, 2012 are as follows:

Year Ending			Mun	icipal Building
June 30	Principal	Interest	Au	thority Fund
2013	-	79,483		79,483
2014	-	79,483		79,483
2015	-	79,483		79,483
2016	-	79,483		79,483
2017	-	79,483		79,483
2018-2022	-	397,413		397,413
2023-2026	6,462,000	298,060		6,760,060
	\$ 6,462,000	\$ 1,092,886	\$	7,554,886

## D. Obligations Under Capital Lease

<u>Virtual Driver's Education Vehicles</u> - In fiscal year 2010, the District entered into a lease agreement for 10 virtual vehicles, in the amount of \$81,721. Annual payments are typically financed through the District's general fund, and future minimum lease payments at June 30, 2012 are as follows:

Year Ending June 30	Principal	Interest	General Fund
2013	8,506	200	8,706
	Total Minimum	Lease Payments	8,706
	Amount Repr	esenting Interest	(200)
	Present Value of Minimum	Lease Payments	\$ 8,506

## E. Combined Maturities on Long-Term Borrowings

The combined aggregate amounts of maturities on all long-term borrowing (General Obligation Bonds, and Capital Lease) are as follows:

Year Ending June 30	Principal	Interest	Total
2013	4 524 506	1 006 424	6 510 040
	4,524,506	1,986,434	6,510,940
2014	4,701,000	1,807,181	6,508,181
2015	4,936,000	1,595,434	6,531,434
2016	5,240,000	1,373,045	6,613,045
2017	3,650,000	1,127,545	4,777,545
2018-2022	9,675,000	4,029,351	13,704,351
2023-2027	17,587,000	1,682,810	19,269,810
	\$ 50,313,506	\$ 13,601,799	\$ 63,915,305

## F. Government Obligation Bond Issuance

During the current fiscal year, no new government obligation debt was issued.

## 7. RETIREMENT PLANS

## A. Defined Benefit Plan

The District contributes to the State and School Contributory Retirement System and State and School Non-contributory Retirement System (collectively, the Systems) which are cost-sharing multiple-employer defined benefit pension plans administered by the Utah Retirement Systems (URS). URS provides refunds, retirement benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries in accordance with retirement statutes.

The Systems are established and governed by the respective sections of Chapter 49 of the Utah Code Annotated 1953, as amended. The Utah State Retirement Act in Chapter 49 provides for the administration of the URS and plans under the direction of the Utah State Retirement Board whose members are appointed by the Governor. The Systems issue a publicly available financial report that includes financial statements and required supplementary information for the Systems. A copy of the report may be obtained by writing to the Utah Retirement Systems, 540 East 200 South, Salt Lake City, UT 84102 or by calling 1-800-365-8772.

*Funding Policy.* Tier One plan members in the State and School Contributory Retirement System are required to contribute 1.00% of annual covered salary, and the District contributes 17.37% of annual covered salary. Tier Two plan members do not have a required contribution, and the District contributes 12.74% of annual covered salary. For employees participating in the State and School Non-contributory System, the District contributes 16.86% of annual covered salary. The contribution rates are the actuarially determined rates. The contribution requirements of the Systems are authorized by statute and specified by the Utah State Retirement Board; amendments to the plans provisions and contribution requirements must be authorized by statute and the Utah State Retirement Board.

Provo City School District contributions (including employee contributions paid by the employer) to the State and School Contributory Retirement System for the years ended June 30, 2012, 2011, and 2010 were \$316,598, \$124,669, and \$109,236, respectively, and for the Non-contributory Retirement System the contributions for June 30, 2012, 2011, and 2010 were \$7,450,014, \$8,208,118, and \$7,271,586, respectively. The contributions were equal to the required contribution for each year.

## **B.** Defined Contribution Plans

The District also participates in a defined contribution plan under Internal Revenue Code Section 401(k) to supplement retirement benefits accrued by participants in the Systems. Employees covered by the State and School Non-contributory Retirement System have a contribution of 1.5% of covered salaries automatically made by the District. Employees participating in the Systems can make additional contributions to the 401(k) plan up to specified limits. Contributions and earnings may be withdrawn by the employee upon termination or may be used as supplemental income upon retirement. District contributions made for employees for the years ended June 30, 2012, 2011, and 2010 were \$840,850, \$840,230, and \$997,035, respectively; the employee contributions for years ended June 30, 2012, 2011, and 2010 were \$725,975, \$797,340, and \$910,471, respectively. The 401(k) plan funds are fully vested to the participants at the time of deposit. Plan assets are administered and held by URS. The contribution requirements of the Systems are authorized by statute and specified by the Utah State Retirement Board; amendments to the plan's provisions and contribution requirements must be authorized by statute and the Utah State Retirement Board.

The District also offers its employees a deferred compensation plan created in accordance with Internal Revenue Service Code Section 457. The plan, available to all full-time employees, permits them to defer a portion of their salary until future years. Employees are eligible to voluntarily participate from the date of employment and are vested immediately upon participation. Employee contributions to the Section 457 plan totaled \$51,816 for the year ended June 30, 2012. The assets of the plan are administered and held by URS and a third-party administrator.

# 8. EARLY RETIREMENT INCENTIVE AND POST EMPLOYMENT HEALTH CARE BENEFIT OBLIGATION

*Plan Description* The District self-administers single-employer retirement plans described below. The District is the only employer participating and contributing to the plans, and the does not issue a publicly available report.

The District provides a voluntary early retirement incentive program. Eligibility is restricted to those employees hired prior to September 1, 2005, and have a minimum of 12 years of service in the District who retire under provisions of the Utah State Employee's Retirement Act. Those qualifying under this program, who choose to retire early, may receive a salary benefit for up to five years and a health and accident benefit up to eight years. Benefits vary based upon years of service, position on salary schedule, and employee classification as follows:

- For those with 20 years of service the Board will pay 5 years of stipend benefits of 54% of final salary above lane 5 step 1 - \$27,680.
- For those with 12-19 year of service the board will pay a single lump sum payment of the present

value of 5 years of stipend of 20% of final salary. The lump sum will be prorated on service as follows: 18-19 years 70% 16-17 years 60% 14-15 years 50% 12-13 years 40%

The District also provides a life-time Medicare supplemental insurance benefit for retired employees who have completed at least 20 years of service as of January 1, 2005; the plan also provides coverage for spouses of employees who have completed 30 years of service by January 1, 2005. There are approximately 490 retirees receiving benefit coverage in addition to 277 present employees (and spouses) who have earned vested coverage upon retirement.

*Funding Policy* The District contributes the full cost of the current year benefits for eligible retirees. The contribution is pay-as-you-go, no plan assets are accumulated. District contributions for the 2012, 2011 and 2010 were \$3,289,051 and \$2,781,787 and \$3,720,800 respectively.

*Annual OPEB Cost and Net OPEB Asset* The District's annual other post employment benefit (OPEB) cost is calculated based on the *actuarial required contribution* (ARC). The ARC represents a level of funding that, if paid on an on-going basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed for the year, and changes in the District's net OPEB asset of the plan year:

Normal Cost	\$655,000
Amortization	1,729,000
Annual pension cost	2,384,000
Contributions made	3,289,051
Increase (decrease)in net OEPB asset	905,051
Net OPEB asset at July 1, 2011	2,998,654
Net OPEB asset at June 30,2012	\$3,903,705

Net OPEB asset at July 1,2010 was \$2,600,867. The percentage of annual OPEB cost contributed was 138%, 117%, and 154% at June 30 2012, 2011, and 2010, respectively.

*Funded Status and Funding Progress* The actuarial accrued liability of the District's post employment benefit plan as of July 1, 2010 and July 1, 2008 is \$43,337,000, and \$40,539,000, respectively. All of which is unfunded. July 1, 2010 is the most recent actuarial valuation date. The covered payroll (annual payroll of active employees) at June 30, 2012 and 2011 is \$12,937,420 and \$11,841,702, respectively. The ratio of the unfunded actuarial accrued liability to the covered payroll was 335% for fiscal year 2012 and 366% for fiscal year 2011.

The projected benefit payments for an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the health care cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the basic financial statements, will present multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

**Actuarial Methods and Assumptions** Projections of benefits for financial reporting purposes are based on the substantive plan (the Plan as understood by the employer and the Plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include

techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. In the July 1, 2010 actuarial valuation, the projected unit credit with benefits attributed from the date of hire to expected retirement age was used. The actuarial assumptions included a 4.5 percent investment rate of return (net of administrative expenses), a 3.5% projected annual salary increase, and an annual health care cost trend rate of 11.0% initially for those under age 65, and 7.5% for those 65 and older, reduced by .5% decrements to an ultimate rate of 5.0%. The actuarial method used for valuing assets is market. The Plan's unfunded actuarial accrued liability is being amortized over 30 years in level dollar amounts on a closed basis. Claim costs assumptions are based on premiums for active employees and do not recognize the effects of Medicare Part D. Demographic and other assumptions include 1) mortality rates; 2) public education retirement rates; 3) termination rates by age, gender, and years of service; and 4) District salary schedules.

*General Fund Balance Designations* At June 30, 2012, the District has committed \$14,198,244 of the general fund balance for future funding of the OPEB.

## 9. GRANTS - CONTINGENT LIABILITY

The District receives significant financial assistance from federal and state governmental agencies in the form of grants. The disbursements of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the District's independent auditors and other governmental auditors. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable fund. As of September 30, 2012, the District had not received any notification from any grant providing agency or government identifying any noncompliance liabilities associated with past District grant awards.

## **10. DESIGNATED FOR UNDISTRIBUTED RESERVE**

Utah State law (53A-19-103) allows for the establishment of an undistributed reserve (Unassigned fund balance per GASB 54). The Board must authorize expenditures from the undistributed reserve. This reserve is for contingencies. According to State law, the District may not use undistributed reserves in the negotiation or settlement of contract salaries for District employees. The undistributed reserve may not exceed 5% of the current operational budget adopted by the Board. Use of the reserve requires a written resolution adopted by a majority vote of the Board filed with the Utah State Board of Education and State Auditor.

## **11. LITIGATION AND LEGAL COMPLIANCE**

The District is involved in claims arising in the normal course of business. It is not possible to state the ultimate liability, if any, in these matters. These claims are generally insured through the District's risk management insurance and are investigated by the District's insurance representatives and defended by the State Attorney General's office. In the opinion of management, such litigation will have no material effect upon the financial operations of the District.

## **12. SUBSEQUENT EVENTS**

As of September 30, 2012, the District has no susequent events of note.

## **13. COMMITMENTS**

As of September 30, 2012, the District has no commitments of note.

## **14. RISK MANAGEMENT**

#### A. Property and Liability Insurance Coverage

The District maintains insurance coverage for general, automobile, personal injury, errors and omissions, employee dishonesty, and malpractice liability through policies administered by the Utah State Risk Management (Fund). The District also insures its buildings and contents against all insurable risks of direct physical loss or damage with the fund. The Fund is a public entity risk pool operated by the State for the benefit of the state and local governments within Utah. This is a pooled arrangement where the participants' pay experienced rated annual premiums, which are designed to pay claims and build sufficient reserves so that the pool will be able to protect the participating entities with its own capital. The pool re-insures sizeable losses to preserve the capital base. During fiscal year ended June 30, 2012, there were no significant reductions in coverage. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

#### B. Worker's Compensation & Long-Term Disability Insurance Coverage

The District participates in the Utah School Boards Risk Management Mutual Insurance Association which is a risk pool for workers' compensation. The District has purchased commercial insurance for other risks of loss including employee health and accident insurance. Unemployment compensation is handled on a cost of benefits reimbursement basis with the state of Utah. During the fiscal year ended June 30, 2012, there were no significant reductions in coverage. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

#### C. Self-Insured Short-Term Disability Coverage

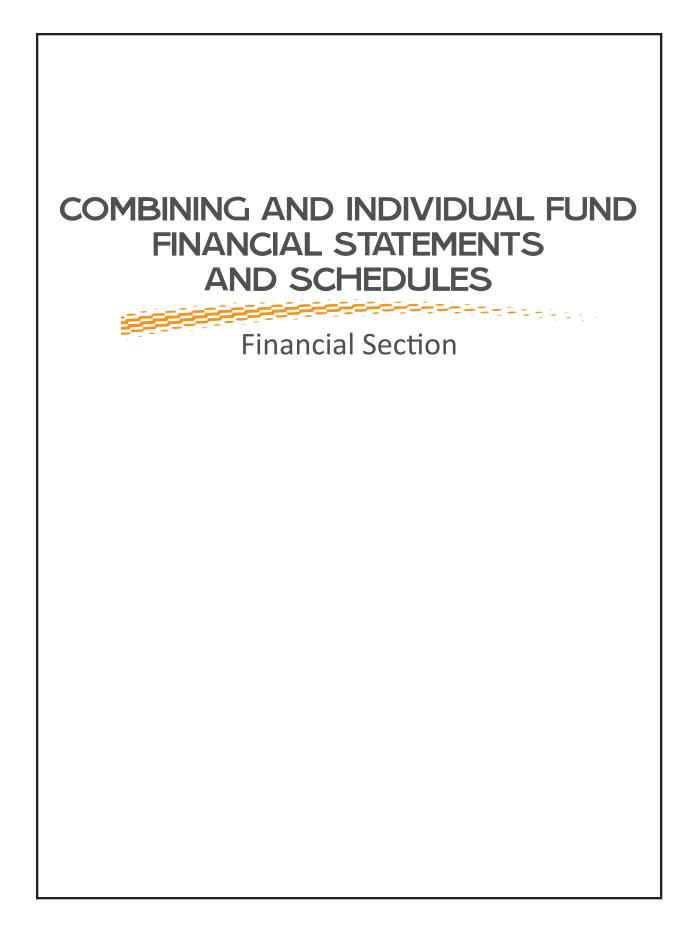

The District is self-insured for certain short-term disability benefits. Employees that are on short-term disability are paid by the district until the date long-term disability takes effect (short-term disability payments begin after 15 days sick time has been used). There were no cases that occurred prior to June 30, 2012, which have not been resolved.

## **15. JOINT VENTURE - RECREATION CENTER**

52

Since 1977, the District has contractually agreed with Provo City to jointly fund the operation of a recreation center on District property near Provo High School. The construction costs were shared jointly by both entities; both entities jointly share operational expenditures each year. During fiscal year 2012, Provo City School District remitted \$132,676 to Provo City for its share of operational costs; this amount is reported as an expenditure in the Non K-12 Instruction governmental fund. The facility provides student access for curricular and extra-curricular activities as well as community access. The agreement also provides for a residual equity interest in the building, and the building reverts back to the District 100 years from the original inception of the agreement.

Audited financial statements for Provo City can be obtained through the Utah State Auditor's internet web site at http://www.sao.state.ut.us/reports/lgfs.htm. Audited financial statements can also be obtained from Provo City's Department of Finance, 351 West Center, Provo, Utah, 84601, (801) 852-6506.

Fiduciary funds account for assets held by the District in a trustee capacity or as an agent on behalf of others.

Agency funds are custodial in nature and do not present results of operations or have a measurement focus. Agency funds are accounted for using the modified-accrual basis of accounting. These funds are used to account for assets the District holds for others in an agency capacity.

**Special** This fund accounts for assets held by the District for local independent smaller entities and Programs agencies. The District provides services such as payroll and accounts payable for these entities but has no legal control, responsibility and accountability requirements for how these Fund entities use their resources.

This section of the District's Comprehensive Annual Financial Report presents detailed information as a context to better understand the information in the financial statements, note disclosures, and required supplementary information.

#### Financial Trends (pages 83 - 93)

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

#### Revenue Capacity (pages 94 - 101)

These schedules contain information to help the reader assess the District's most significant revenue sources.

#### Debt Capacity (pages 102 - 108)

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

#### Demographic and Economic Information (pages 109 - 111)

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

#### **Operating Information (pages 112 - 124)**

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Taxable values are derived from the District's final settlement statement received from the Utah County Treasurer's Office each year.

Total collections may exceed 100% in a collection year if deliquent collections include collection of more than one subsequent levy year. Current data does not provide which individual levy years deliquent tax collections apply to, and are therefore included in the collection year in the presented data.

Total direct general obligation bo		( build	., (.,		43,843,000	
Total direct, overlapping, and		ligation debt (excluding	g the State) (3)		10,010,000	201,792,912

Taxable Value: Taxable values used in this table for non-district entities were derived from www.taxrates.utah.gov

(1) Central Utah Water Conservancy District (CUWCD) outstanding general obligation bonds are limited ad valorem tax bonds. By law CUWCD may levy a tax rate of up to .000400 to pay for operation and maintenance expenses and any outstanding limited ad valorem tax bonds.

(2) All or portions of these governmental entities outstanding general obligation debt are supported by user fee revenues from water or sewer. The District's portion of overlapping general obligation debt does not include user fee revenue supported general obligation debt.

(3) The State's general obligation debt is not included in overlapping debt because the State currently levies no property tax for payment of general obligation bonds.

	2012	2011	2010	2009	2008	2007	2006	2005	2004	2003

The general obligation bonded debt of the District is limited by Utah law to 4% of the fair market value of the total taxable property in the District. The legal debt limit and additional debt incurring capacity of the District are based on estimated fair market value and the calculated valuation value from uniform fees, and are calculated as shown above.

In computing the fair market value of taxable property, the fair market value of all tax equivalent property is included as part of the calculation. Fair market value obtained from Utah County Assessor's Office.

Source: estimated FMV obtained fro the Utah County Assessor's Office.

Fiscal year 2005 was the first year reliable FTE data was available, therefore comparative data is presented from 2005 to present.

For the purpose of this report, full-time equivalent positions are defined by calculating full time and hourly positions based upon a 40 hour work week.

The District uses several different methods for reporting full-time equivalent positions.

Source: District Data

The state of Utah requires student average daily membership to be audited by an independent auditor at the end of each school year. The state uses average daily membership as a major component in determining much, but not all, of the funds it allocates to public school districts in the next subsequent year.

Total daily membership per this schedule includes Youth in Custody, Early Intervention and Utah State Hospital program counts.

1-previously Farrer Elementary

2-previously Grandviw Elementary
