

Provo City School District
Policy Series 6000: Finances and Operations

Policy No. 6608

Video Cameras on School Buses

The board authorizes the use of video cameras on district-operated school buses for the purpose of reducing discipline problems, thus providing a safer environment for the transportation of students. The reason for recording the transportation environment is to provide documentation when dealing with allegations of inappropriate student/adult behavior. Disciplinary action will be in accordance with board policies and procedures.

The superintendent will prepare procedures for use of the video equipment on buses, the authorized review process for video recording media and the proper disposal of recording media.
