

# Learning Conversations are about Progress, Rather than Achievement

## Tracking My Progress

Learning Targets:	I can explain the role the sun plays in weather.	I can explain the role the wind plays in weather.	I can explain the role water plays in weather.	I can explain how each weather element works together to make weather.
Exemplary - I have exceeded the target.				
Accomplished - I have met the target.	●			
Developing - I have not met the target but am making progress.	●●●●●●●●●●●●●●●●			
Beginning - I am not making significant progress.	●●●●●			

How did you grow as a  
Mathematician today?

1. Describe a new strategy you learned.
2. Tell a math word you learned and what it means.
3. Describe a mistake you made and what you learned from it.
4. Explain how you challenged yourself today.
5. Tell about something you noticed today and how it helped you solve a math problem.

# The Learning Journey

I'm ready to start on this learning journey! ①

I'm progressing toward the learning goal, but I still have concepts to master. ②

Hooray! I met the goal! Hmm... I wonder if I could do more? ③

I surpassed the goal! ④  
I went above and beyond!
