

Provo City School District
Policy Series 3000: Students

Policy No. 3230

Search and Seizure

Provo City School District seeks to maintain the safety and wellbeing of students at all times. As such, the Board acknowledges the need of appropriate school officials to act when the health and safety of students is immediately threatened. In accordance with both Utah Code and recommendations of the Utah State Office of Education, procedures for search and seizure have been developed which outline steps to take when there is reasonable suspicion that a rule or law has been violated and a search needs to be conducted. These procedures also direct appropriate school officials in the necessary custody, control, and disposal of any illegal or dangerous substance or objects taken from a student.

The Board expects that while searches may need to be conducted under urgent circumstances, in the course of any search students' privacy rights will be respected regarding any items that are not illegal or against district/board policy.

The Board directs the superintendent to develop procedures for enforcing this policy for search and seizure in schools and ensuring the health and safety of students.
