Parental Exclusion from State Assessments Form: Secondary State Assessments

The data obtained from these state assessments may be utilized by teachers and administrators to review student academic progress, plan instruction, and share with students and parents. Summative assessments allow for data to be used in public reporting about school quality. Though parents may submit a Parental Exclusion form at any point, if one submits the Parental Exclusion form to the school at least 24 hours prior to the scheduled test, the school will ensure excluded students do not access the test(s). For more information, see Board Rule 277-404-7 at https://rules.utah.gov/publicat/code/r/277/r/277-404.htm#T7

As a parent/guardian, I choose to have my child NOT participate in the assessments below, during the school year. Note: To continue this request past this school year, this form must be returned annually to your local school.
