LETTER FROM NEW SUPERINTENDENT WENDY DAU

My name is Wendy Dau, and I am thrilled to be named the new Superintendent of Provo City School District! There are so many great things happening at the schools within Provo, and we want to expand these opportunities and make it an even better community than it already is. I think it might be helpful to share a little about my background so that you understand why education is such an important part of my identity and my life's work.

I was raised in Bountiful, Utah, and both of my parents immigrated from Denmark in the 1950s. At a very young age, I remember my parents sharing some wise insight with me. First, my dad told me to obtain as much education as possible, for it was the only way to get ahead in society, especially as a daughter of immigrants. He told me to work hard in school so that my education could be paid for through scholarships. There was no understanding in my family of federal financial aid or student loans; you either worked to support yourself in college or you earned scholarships to have your schooling paid for. I took this advice to heart, and I loved school, mostly because I had incredible teachers who opened my eyes and believed in me even when I did not believe in myself. The second insight was from my mother, who taught me that I was just as capable of achieving and accomplishing whatever my heart desired, as long as I worked hard and was persistent. My mom told me never to shy away from a challenge, and if anyone suggested that a particular profession or course of study was not appropriate for a girl, she immediately dismissed that. Everyone can achieve, according to my mom, no matter their background, their race, their gender, if they had the right mentors fighting for them and if they were willing to work hard.

I was fortunate. I had incredible mentors in school, particularly in middle school and high school. My teachers taught me how to write and challenged me to read thought-provoking literature. In particular, I gained a great love of history. I was fortunate in that I had not just one, but several teachers who impacted my life for the better. Since I was in Kindergarten, I had always wanted to be a teacher, but it was during my high school years that I made the decision to become a high school teacher because I wanted to help students on their

pathway towards graduation and college. Once that decision was made, there was no looking back.

After high school, I attended Brigham Young University and majored in history and English. I had great practicum experiences at Provo High, Timpview High, Independence High, and Dixon Middle Schools. With each opportunity, I realized more and more that this was the career that I wanted. After graduating from BYU, I accepted a job at Davis High School in Davis School District. I remember being disappointed that I was not hired at my alma mater of Bountiful High, but my experience at Davis High ended up being the very best! I met my husband at Davis High, and I taught a variety of classes over the next seventeen years, including A.P. European and U.S. History. Helping students think critically and teaching them to write well were important to me, no matter the age or skill level of the student. I love it when my former students come back and say, "Do you remember how many essays you made us write?" Why yes! Do you remember how many essays I graded? Whew! So many! While teaching, I earned a master's degree in history from the University of Utah, focusing primarily on 19th and 20th century women's history.

My husband eventually became an elementary principal and later a junior high principal and high school assistant principal. I became very familiar with the world of administration, and I finally decided to pursue a master's degree in Educational Leadership and Policy from the University of Utah. Needless to say, we talk A LOT about education in our home. While finishing this master's degree, I accepted a part-time administrative internship at Clearfield High School. When I finished my degree, I was hired to be an assistant principal at Jordan High School in Canyons District. Jordan High is one of the oldest high schools in the state, rich in tradition. I had great mentors, both at the school and district level, as I learned what it took to support teachers in their great work. After two years at Jordan High, I was assigned to be the principal of Midvale Middle School, one of the most highly impacted middle schools in the state. I learned so much from the faculty of this school, as their dedication and perseverance were beyond any I had ever seen. We had students from the Road Home Shelter. We had gifted and

talented students in our gifted program, a Dual Immersion Spanish Program, a special class for students with significant behavior challenges, and we had to work together as a faculty to meet the needs of a very diverse group of learners. This assignment was one of the most challenging and most rewarding ever. The teachers who could connect with students and build those relationships were magical, and I never grew tired of sitting in their classes and seeing how they could engage students. While serving as the principal, we built a brand-new building for our students and community, which sent a great message that our district was invested in all kids to ensure that they had great learning spaces.

After two years at Midvale Middle, I returned to Jordan High School as the head principal. What a great honor to return to serve this incredible faculty and staff. I loved going to work every day, even with the stress that comes from being a high school principal. I had the best administrative teams who worked collaboratively with teacher leaders to build a great community. The students kept me young and full of energy, and I loved sitting in classrooms seeing teachers build great relationships with young people as they helped them finish out their path towards graduation. Few things are better than shaking the hand of every single senior as they walk across the graduation stage to earn their diploma. I am inspired every year when I see the extraordinary accomplishments of young people, and I see the obstacles they overcome to achieve their goals. Even during Covid, I watched us come together as a community, and the appreciation that students developed for simple things like a school dance or an assembly was fun to see. I know that the life of a high school principal is hectic, but I loved extracurricular activities from the performing arts to athletics to competitions of every kind. Seeing kids do something they were passionate about was a great reward. The happiest moments were when you asked students what they loved about Jordan High and they said, "I love the diversity here. Everyone is included. We're a family."

For the past two years, I have served as the Director of Federal and State Programs in the Canyons District Office. I have been part of the Superintendent's Cabinet, and I also facilitate our District Case Management Team which oversees all of our safe schools violations so that we can formulate plans to re-integrate students and ensure they have the supports they need while keeping students safe. I have overseen our Title I schools, all of our funding for English learners, after

school programming, and supports for Native American students. I also participated in the development of our district's Strategic Plan, and I oversee the committee that supports one of our major pillars: Access and Opportunity. It is no secret that I am a fighter for all students to have what they need to take advantage of the opportunities we provide. And to do this, we have to fight for teachers and principals to have the support they need to be effective with all students. I am currently working on my doctorate at the University of Utah in Educational Leadership and Policy, with my research focused on the impact that positive relations between superintendents and school boards can have on student outcomes.

On a personal note, my husband, David Dau, is a retired principal and currently teaches at the alternative high school in Canyons District. I have three amazing children: Zach, who is married to my brilliant daughter-in-law Kari; Caleb who is a paraeducator for students with severe disabilities, and Sierra who works as an occupational therapist for the elderly. But clearly the most important person in my family is my beautiful grandson, Beau, who is 18 months old. Nothing is better than watching your children grow into incredible adults that you want to be around and spend time with. I am so lucky to have such an incredible and supportive family!

The diversity of the Provo City School District excites me, as I believe we can create great opportunities and meet the needs of all students and families. I assure you that I will work hard for our kids and our families and our employees, and I hope that the passion that I have for education will be contagious, for as my dad said, education has the ability to open up endless opportunities for all when we work together!

As we prepare for the start of our upcoming school year, I want to personally welcome back all the students and families in Provo City School District! A new school year is always exciting, but this year I feel we have even more to look forward to.

We'll soon be opening a brand-new, safe, academic wing at Timpview High School with a few other improvements and construction projects being completed there within the next year. We're also anxiously awaiting the completion of Shoreline Middle School (about 1 year of construction remaining) and Wasatch Elementary School (about 1.5 years of construction remaining). The end of those construction projects will mean that every single student in our district will have safe, updated facilities to learn in. What an accomplishment for our District since we were facing terrible facilities challenges only 10 years ago.

We are also excited to welcome our new superintendent, Wendy Dau! I'm confident her leadership will bring positive change and growth for our district while building on the many things we already do well. With our primary focus on student achievement, together we have solid plans in place to fine-tune academics, communication, systems, and many other aspects of our operations. Her wealth of experience, energy, and enthusiasm will be a huge benefit to our students and teachers. She plans to be in the schools and engaging with the public right away. Please say hello to her when you see her out and about.

We are lucky to live in the beautiful city of Provo with such wonderful residents. We appreciate your support as we embark on these new & exciting adventures together. I hope your summer has been relaxing and rejuvenating and that you're ready for the 2023-2024 school year. We happily anticipate the students' return!

SCHOOL REGISTRATION INFORMATION

ONLINE REGISTRATION FOR NEW STUDENTS

Starting school can feel daunting– but we’re here to help. Students must be 5 years old on or before September 1, 2023 to register. Below is our guide to getting new, returning, and inactive students (those who withdrew from school before July 15, 2023) through our online registration with valuable tips.

1. Use our School Boundary Locator at provo.edu/school-boundary-locator/, or scan the QR code to find your school.

USE SCHOOL BOUNDARY LOCATOR TO FIND SCHOOL AND ACCESS BUS ROUTES

 provo.edu/school-boundary-locator
 801.374.4838

2. Fill out the pre-registration form.
 - Your school will create a PowerSchool account and email you instructions to create a Powerschool account within 5-7 business days (Summer hours may affect this).

ACCESS PRE-REGISTRATION FORM

 forms.provo.edu/preregister

3. Login to Powerschool using the information sent in the email from your school. Fill out all the required fields. Please be aware that this portal is closed each year from July 1-15 during our system update.
 - Please allow USIS (US Information Service) access to your immunization records. This allows our nurses to save your immunization records for future usage.
 - Bring the following documents to the school:
 - Original copy of your child’s birth certificate
 - Complete immunization records (including shot dates/exemption certificates).
 - Proof of address (utility bill, rental agreement, etc.)
 - Photo ID of the parent

NEW/INACTIVE STUDENT REGISTRATION INFORMATION

 provo.edu/student-services

RETURNING STUDENT REGISTRATION

Remember that you must complete the online registration annually through the Parent Portal Account in PowerSchool. The Portal offers access to grades, attendance, assignments, and vital safety notifications and communications from your school and district. If your student is enrolled but you don't have a Portal Account, visit grades.provo.edu or scan our QR code. Please note the portal is closed from July 1-15 during our system update.

ACCESS PARENT PORTAL TO COMPLETE ANNUAL POWERSCHOOL REGISTRATION

 grades.provo.edu

Our middle and high schools have unique registration and orientation events. Find out more about those events on their websites.

RESOURCES ROADMAP

The school season comes too quickly- but don't stress. We've got the shortcuts in our Resource Roadmap to get you where you need to go. The QR codes on page 11 will take you to a webpage that can guide you through each task from start to finish.

NOTICE OF NON-DISCRIMINATION

 Scan the QR code for more information

The District does not discriminate in programs, services, activities or employment on the basis of religion, sex, sexual orientation, race, color, national origin, age, veteran or military status, or disability. Learn more about inquiries regarding students, programs, services or activity compliance at our Notice of Non-Discrimination page through the QR code.

SCHOOL BOUNDARY LOCATOR

 Scan the QR code  801.374.4838

Provo City has created an online mapping interface which allows you to access vital information including finding your school boundary and bus routes.

BUSING

 Scan the QR code  801.374.4860

If your child lives over 1.5 miles from their elementary school or over 2 miles from their middle or high school they are eligible to ride the bus. We also provide transportation for qualifying special needs students at any distance.

SCHOOL FEES AND FEE WAIVERS

 Scan the QR code  School Financial office

There are fees associated with some classes in middle and high school, as well as some afterschool elementary programs. These fees vary according to class. No student is denied participation due to inability to pay school fees. You may be eligible for a fee waiver.

SCHOOL MEALS & FREE/REDUCED MEALS

 Scan the QR code  801.374.4866

Our schools offer all students a variety of nutritious meals. Prices for school meals in 2023-2024 are as follows unless you are approved for free/reduced meals.

Elementary	Breakfast	\$1.50
	Lunch	\$2.00
Secondary	Breakfast	\$1.50
	Lunch	\$2.25

IMMUNIZATION

 Scan the QR code  801.374.4838

Utah law requires that school records include complete immunization records, including documentation of the day, month, and year each immunization was given.

**IMPORTANT ANNUAL
REGISTRATION STEP
many parents miss!**

Follow the QR code to learn more.

STAY CONNECTED!

SPECIAL NEEDS ACCOMMODATIONS & TESTING

 *Scan the QR code*  **801.374.4933**

If your child is having significant difficulty with vision, hearing, speech, behavior, physical development, learning difficulty or is experiencing slow development typical for his/her age, they may qualify for differentiated services to meet their needs. We offer a large array of services supporting students with special needs. We provide no cost testing and then coordinate an educational experience tailored to meet the needs of your student.

FREE HEARING EVALUATIONS

 *Scan the QR code*  **801.374.4895**

PCSD has an audiologist on staff who can provide hearing evaluations at no charge for students and answer questions about classroom listening. For more information please call the listed numbers or email jeramyj@provo.edu.

CHROMEBOOK HELP DESK

 *Scan the QR code*  **801.373.2188**

Each PCSD student is provided a Chromebook for use. Students will be assigned their Chromebook during the first weeks of school. For any issues, please reach out to the Chromebook Help Desk or complete the work order form.

BLOCKS! SCREEN MONITORING

 *Scan the QR code for more information*

Blocks! is a tool used in schools to help enhance safe online learning environments. Parents can also access Blocks! at home. Learn more about parent controls for school Chromebooks at home using the QR code.

CANVAS OBSERVER

 *Scan the QR code for more information*

We encourage parents to become observers in their student's Canvas courses. This will help you better understand how your child is participating in class. Learn more by using the QR code.

SCHOOL TRANSCRIPTS

 *Scan the QR code*  *School office*

For transcripts less than 5 years old, please contact the school's registrar. For older transcripts, or to order transcripts in July, please contact our Student and Family Services Department.

FAMILY EDUCATIONAL RIGHTS & PRIVACY ACT

 *Scan the QR code for more information*

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years old or older ("eligible students") certain rights concerning the student's education records. Read more about FERPA and the Notification of Rights through the QR code.

RESOURCES ROADMAP

A one stop resource webpage
