Juice, milk, assorted fruit

DID YOU KNOW?

The June Bug is the name for several large beetles seen in the United States during May and June.

Provo School District has a long history of providing outdoor education opportunities for Provo City School District children. The history dates back to at least 1950 at Camp Sowiette, located “deep in Rock Canyon.” Students in 5th grade, 6th grade, and Junior High would attend camp in week long sessions during the summer.

Camp Big Springs has a rich history and a proven track record in Provo. More than 25,000 students have attended Camp Big Springs over the years. As of 3 years ago, we started receiving great grandchildren of early attendees of Camp Big Springs. It has definitely had a profound impact on our students, our parents, and the community as a whole.
